Please note:

- When ordered without a frame, the screen is fitted with an all round brush and external aluminium hinges (Fig. 9).
- Type 3 screen is manufactured with aluminium internal hinges (Fig. 10) and magnetic strip (Fig. 14).
- Should you wish your screen to be painted in a RAL colour, please indicate the colour of PVC elements (white, brown, silver, anthracite, basalt grey, grey-black matt RAL 7021, black matt RAL 9005 – "Comments" box).
- Any colour from the RAL palette except pearly, metallic and fluorescent colours.
- If you fail to tick this box: type 1, 2, 4 screen will be delivered with external aluminium hinges (Fig. 9); type 3 screen will be delivered with internal aluminium hinges (Fig. 10).
- Type 1, 2 insect screen is manufactured with a round magnet; type 3, 4 insect screen is manufactured with a magnetic stripe.
- Column 8 concerns: type 3 screen and type 1, 2 screens with magnetic strip as a locking device.
- Insect screen type 1 is fitted with a knob (column 9).
- If no mesh colour is selected, the colour of mesh of the screen delivered will be grey.
- The mullion is mounted at the height of 967 mm from the bottom of the screen. Should you wish to modify it, please enter the new height in column 11.
