Please note:

- 1 Standard height tolerance equals max. + 15 mm
- 2 Colour of monocommando gear unit: white, ivory, grey, golden oak, black (if no colour is selected, the manufacturer will use a standardised gear unit); metal ball chain is used as standard.
- 3 No drill bracket available in white only.
- 4 If no option in column 6 is selected, bracket A will be used.
- 5 Available colours of wooden accessories (WOOD/AL. system) as in 50 mm wood slats catalogue.
- 6 Milled bottom rail comes with tape ladder only.
- 7 Should you select no option in column 13, the manufacturer will assume that the product is intended for rooms young children have access to (length of operating chains/cords compliant with PN-EN 13120:2014+A1 standard).
- 8 Control length according to the criteria before the blind was adapted to the Child Safety standard ranges from 100 mm to 3400 mm (every 100 mm). If control length is not specified, manufacturer's standardisation will apply.

Brackets used with side Comments:
