					L	R				plastic	metal									ceiling ⁽⁹⁾	wall		YES
1		2	3	4	5		6			7		8								9		10	

- Please note:**
- Slight variations in the shades and patterns of fabrics as well as accessories may occasionally occur.
 - Slight discrepancies in the alignment of the stripes are acceptable.
 - RM 32 Impresja roller blind: RM 32 roller blind system - mounting profile, ball chain operation.
 - Please fill in only one column, depending on the type of measurements taken. The difference (of 40 mm) between the total width of the blind and the width of the fabric concerns: RM-32 IMPRESJA (with mounting profile) and RM-32 IMPRESJA (cassette).
 - For RM 32 Impresja RM 45 Impresja roller blind fabric options - see the price list.
 - RM-32 IMPRESJA (with mounting profile) cannot be fixed to the ceiling.
 - For motor control components, see price list.
 - Any RAL colour, excluding pearlescent, metallised and fluorescent colours.
 - If no option in column 10 is selected, the manufacturer assumes that the blind will be mounted in a room/area young children have access to (length of operating chains/cords compliant with PN-EN 13120:2014+A1 standard).
 - Non standard control length (enter value in column 10) ranges between 250 mm and 3000 mm (in 250 mm increments). If control length is not specified, the blind will be produced in accordance with manufacturer's standardisation.
