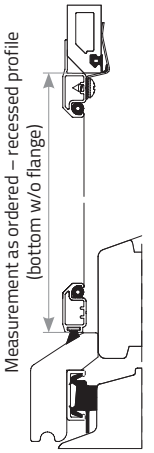
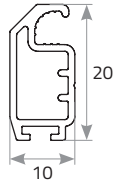
Profile without flange in a window with a drip-cap



Profile w/o flange – cross-section



**Please note:**

1 When no type of profile has been selected, **the screen delivered will be one dedicated for a recessed profile**.

2 Should **no corner type** be selected, **the screen provided will be fitted with PVC corner**.

3 Insect screens painted in RAL colours are manufactured either with an internal corner or a PVC one (on request);in the latter case please select the colour from p.3 of „Insect Screens and Roller Shutters Price List".

4 Any colour from the RAL palette except pearly, metallic and fluorescent colours.

5 If no bracket type is selected, we will supply you with: 9 mm brackets for recessed windows and 15 mm brackets for flush mount windows.
In the case of the **spring clip** holder, the range is from 0 to 15 mm **(above 15 mm there is a risk of the holder breaking off)**.

6 Should you not select this option, **standard holes shall be drilled during manufacturing process (concerns recessed windows only)**.

7 If you fail to indicate mesh colour, the colour of mesh of the screen delivered will be grey.

8 The profile without flange is not drilled in manufacturing process.
