

PRODUCT DESCRIPTION

- high quality PET plastic mesh stretched with special cords
- due to its modular design the screen may consist of one or two panels (split or one-sided draw)
- stability and ease of operation
- low threshold (bottom rail 4 mm high only) – convenience and safety for elderly and disabled persons
- weatherproof aluminium structure and high quality materials ensure product durability
- easily dismountable movable part facilitates maintenance and off-season storage
- mesh available in **black only**
- screens available in: white, creamy white, brown, anthracite, silver anode, basalt grey and other RAL palette colours are equipped with accessories in black.
- minimum width of the insect screen: 600 mm

MESH / PVC COMPONENTS
black

OPTIONAL SERVICES AND COMPONENTS			
Item (extra charge)	Unit	Price	Comments
Painting profiles – RAL colour		40%	plastic components are not painted
Profile laminate		30%	
Insect screen frame	m	6,1	

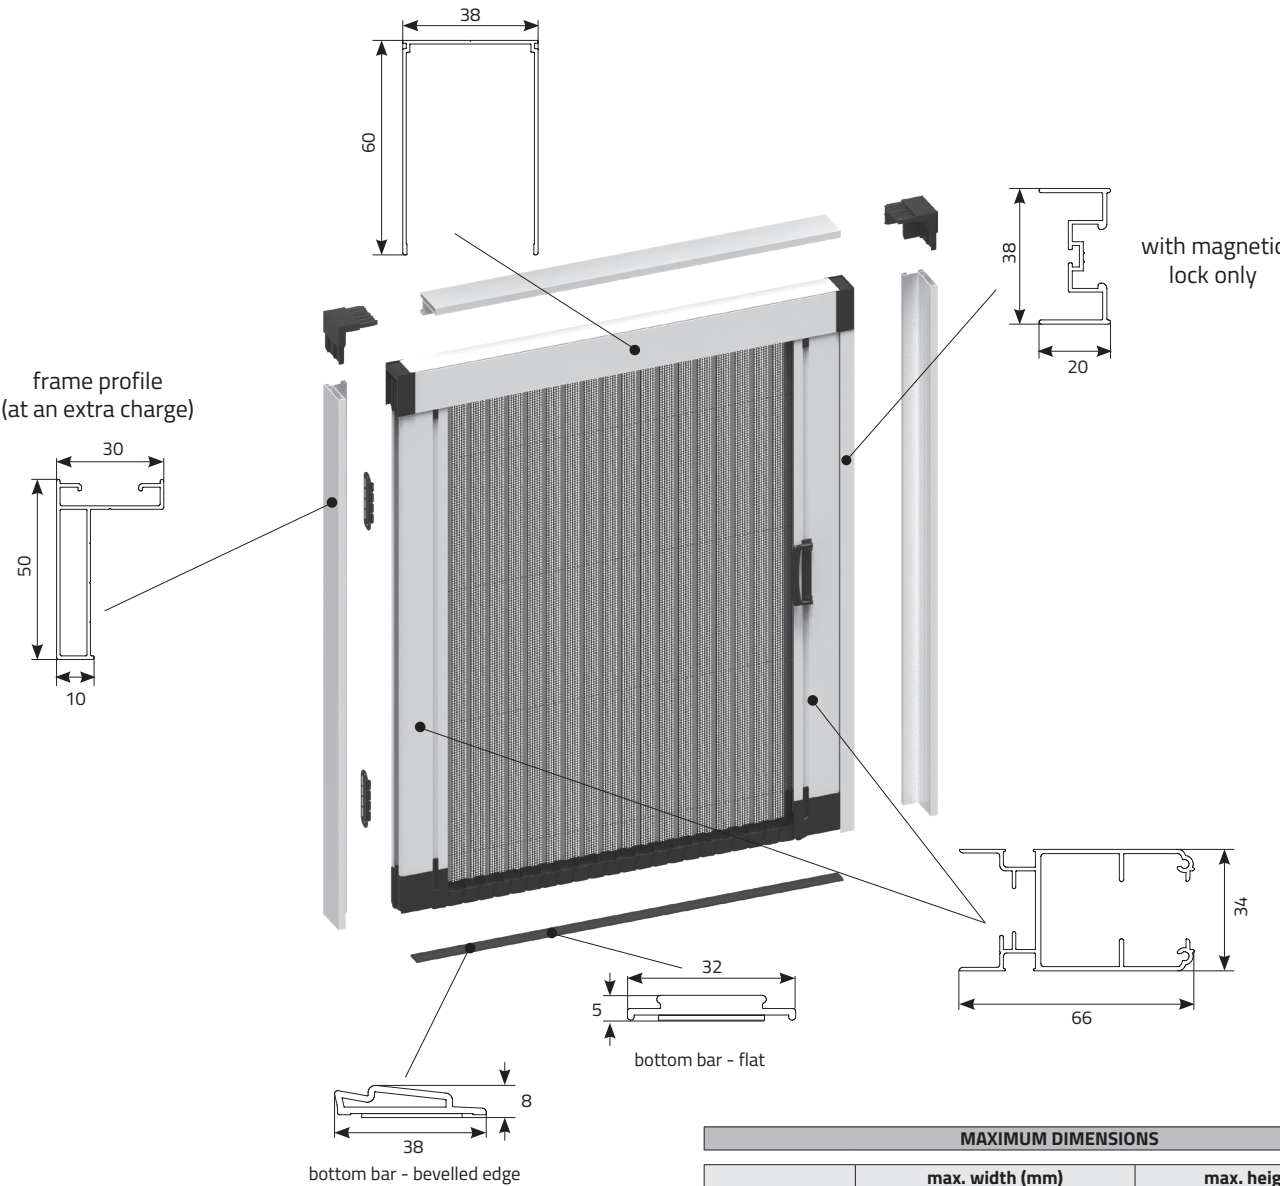

The price of **type 2** pleated screen is the sum total of the value of the two panels.

Example:
type 2 pleated screen – 3800x2400:
price: 457 x 2 = 914 EUR./net.

MOUNTING OPTIONS / MEASUREMENT

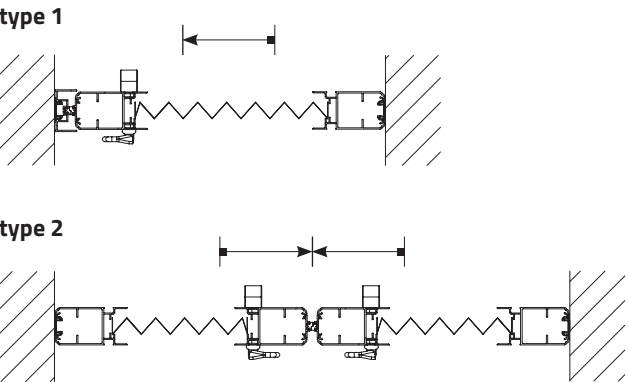

dimension as specified in order form (mm) = (width B) x (height H)

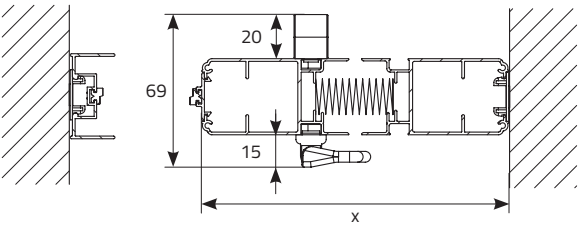

MAXIMUM DIMENSIONS		
	max. width (mm)	max. height (mm)
Type 1	2900	3000
Type 2	5800	3000

TYPES OF PLEATED INSECT SCREENS

THE WIDTH OF THE PACKET		
The width of the screen (mm)	the width of packet with screen pulled to the side (mm) - x	
	TYPE 1	TYPE 2
600 - 1900	160	
1901 - 2900	175	
2901 - 5800		175 x 2

After the insect screen is closed, a 40 mm gap between profiles may occur (as a result of mesh springing back).
